
Savoy Parks and Recreation

Phased Reopening Plan

Phase 4 Specific 6/26/2020

The five phases are:

1. **Rapid spread.** The first phase involves strict stay-at-home guidelines, with all schools closed for in-person instruction, “nonessential” public and private gatherings banned, and “nonessential” businesses closed to the public. This began across the state March 21 with the governor’s stay-at-home order, and ended when the governor slightly eased restrictions on May 1.
2. **Flattening.** The second phase began May 1 and allows “nonessential” retail businesses to reopen for curbside pickup and delivery. State parks can reopen, and fishing, boating and golf can resume with limitations on the number of people in a party. Personal care businesses remain closed, and bars and restaurants are open for pick-up, drive-through and delivery only. Only manufacturing businesses deemed “essential” can operate.
3. **Recovery.** Phase 3 contemplates that manufacturing, offices, salons, barbershops and retail stores will reopen to the public with capacity restrictions and other safety measures in place. Gatherings of 10 people or fewer are allowed. Limited child care and summer programs will be allowed with Illinois Department of Public Health safety guidance. Bars and restaurants will still be closed to dining in. Health clubs can open only for outdoor classes and one-on-one training. Nonessential manufacturing that can operate with social distancing can open. Telework is strongly encouraged, though office employees in nonessential businesses can return to the workplace if IDPH guidelines are followed.
4. **Revitalization (JUNE 26th).** In Phase 4, restaurants and bars can reopen with capacity limitations. Nonessential travel can resume, and child care and schools can reopen under IDPH guidance. Gatherings of 50 or fewer are allowed. Health clubs can operate with capacity limitations. Cinemas and theaters can reopen, subject to capacity limitations.
5. **Illinois restored.** In the final phase, the economy is fully reopened, including conventions, festivals and other large events. Schools, places of recreation and all other businesses are open with safety guidelines in place.

Savoy Parks and Recreation Phase 4

Parks:

- Vehicular traffic through all Parks is allowed.
- Playgrounds reopen but must not exceed groups of 10 or more
- Pavilion rentals with picnic tables are limited to groups of less than 50 people.
- Signs urging social distancing
- All special events can take place with groups of less than 50 people

Outdoor Recreation:

- Activities permitted in groups of 50 or fewer with social distancing
- Baseball/softball/soccer fields reopen for “open play” with no more than 50 people being allowed at any park at a single time. Social distancing encouraged.

Community Recreation Center

- Facility reopens with modifications – June 29th will be the first day open.
- Hours of Operation
 - Monday – Thursday 6:00 a.m. – 7:00 a.m.
 - Friday 6:00 a.m. – 5:00 p.m.
 - Saturday 7:00 a.m. – 4:00 p.m.
 - Sunday Noon – 4:00 p.m.
 - This will help with not only staffing the recreation center, but allow us to clean during and after hours on a consistent basis.
 - Open at reduced capacity, proportionate to the amount of equipment available for use (50 people in the facility at one time is the maximum)
- Guidelines for Patrons/Members
 - Upon entry of the Recreation Center, patrons will be temperature checked for safety. They will also be asked a set of brief questions to determine if they have been exposed previously to an illness. Staff will also give them safety guidelines and inform them about our new policies during Phase 4 and our re-opening. Patrons will be encouraged to wear a mask.
 - Patrons will also be given information to use our one-way path guide through the hallways, stairs, and Recreation Center in general.
 - Patrons are encouraged to bring their own water bottles into our facility. The drinking fountains will be inaccessible due to IDPH recommendations
 - Disinfectant sprays and/or wipes will be readily available
 - Showers will be unavailable at this time.
 - Equipment will be adjusted and/or have restricted use to allow for proper distancing
 - Participants will be required to clean the equipment they come in contact with before and after use
 - Participants may only use one piece of equipment at a time (ex. no circuits or ‘super setting’) so that the machines can be cleaned after use
 - Doors and windows will be kept open to improve ventilation

- Facility Details:
 - **Walking Track**
 - The middle jogging lane will be made unavailable.
 - Only the running and walking lanes will be allowed for use
 - Prevents individuals walking side by side
 - Increases social distancing recommendations
 - **Basketball Courts**
 - All dividing curtains will be lowered between courts
 - Basketballs and volleyballs will be held behind the counter and users must “check out” an item and return it to the front desk before they leave. The equipment will then be sanitized by Recreation Staff.
 - Bleachers and other types of seating will be limited.
 - **Weight Machines (Downstairs and Upstairs)**
 - Only 3 individuals will be allowed in the weight area per social distancing recommendations
 - Users will not be allowed to use machines side by side and they will only be allowed to use one machine at a time
 - **Cardio Area**
 - Users will only be allowed to use every other treadmill or elliptical.
 - The remaining cardio equipment may be moved to other portions of the Recreation Center or will be blocked off in order to comply with social distancing recommendations.
 - **Programs and Fitness Classes**
 - Due to the limitations to room size and a maximum of 50 patrons in our facility at a given time, we will limit programs that occur in the Recreation Center. The overall number of fitness classes will be reduced per day.
- Staff Safety
 - Temperature of staff will be taken every day during check in
 - Temperatures will be taken using a non-contact thermometer and staff will be provided facial masks for daily use
 - Staff will maintain social distancing whenever possible, with the exception of when required to assist with an injured patron or other emergency situations
- Participant Safety
 - Signs will be posted outside entrances restricting entry to anyone with symptoms of illness
 - Hand hygiene stations will be set up at the entrance so individuals can clean their hands before entering
- Facility and Pavilion reservations
 - Maximum capacity for each facility reservation is 50 people
 - Renters will be asked to wash hands and/or use hand sanitizer upon entering the facility
 - Renters will be required to do a general cleaning of room/equipment/tables after use along with taking trash to dumpster
